

I am a supporter and listener of k-love 88.9. We as a family have listened to K-Love for many years. This station is unlike many stations because it provides a positive and uplifting station that I feel safe letting my young children listen too. It also provides us information in our community and surrounding communities of activities and concerts that are being provided by people with similar beliefs and standards that we respect as a family.

It is very rare to find a station that provides the safe listening for my family and children, It would be a tragedy for us to lose this station we have grown to love and depend on.

This community has 2 christian colleges and many students who have strong moral beliefs and we as a community listen and use this station a great deal.
